AWS Certified Solutions Architect – Associate

Rocco Palermi

Senior Web Developer (Laravel, Vue, React)

Troy

Summary

I am a passionate and creative full-stack web developer with 7+ years of experience. I am highly skilled in developing, maintaining, and testing web applications with PHP, Laravel, Vue, React, Angular, Node, Next, Tailwind CSS, Yii, Symfony, MongoDB, PostgreSQL, GraphQL, etc. I have expertise in building web pages, integrating functionalities to websites, working with a team of designers and software engineers to implement any ideas or changes, and integrating 3rd party APIs according to project specifications.

Full Stacks:

- PHP, Laravel, Yii, Symfony
- Vue, React, Next, Angular, Node, Tailwind CSS, JavaScript, Typescript, HTML, CSS
- RESTful API, 3rd party API integration
- MongoDB, PostgreSQL, MySQL

In my personal life, my other interests include golf, traveling the world, and gaming.

Experience

UX Design Collective (Agency)

Fullstack Developer (Vue, React, Laravel, Node)

January 2019 - December 2021 (3 years)

Brooklyn, NY, United States

- Wrote secure full-stack applications and deployed them to cloud-based services like AWS
- Demonstrated programming and computer science fundamentals, as well as software engineering best practices
- Implemented common data structures such as linked lists and trees
- Solved algorithm challenges and analyze the computational complexity of algorithms using Big O notation

SparkDigital

Senior Developer (PHP, Vue, React, Node)

January 2016 - December 2018 (3 years)

New York, NY, United States

- Developed core functionality (full stack) of a client's web platform product. Gathered requirements, prototyped, tested, deployed, and supported the platform.
- Created, configured, and managed all cloud-based infrastructures such as web servers, databases, and content delivery networks.
- Architected and implemented information retrieval system including web crawlers and text-based ranking algorithms.
- Supported customer needs including demos, technical issues, and general inquiries.

Flatorb

Software Engineer (PHP, Laravel, jQuery, Bootstrap)

January 2013 - December 2015 (3 years)

New Rochelle, NY, United States

- Implemented, tested, and supported Flatorb web platform features enabling customers to become self-serving by automating deployments of virtual assistants such as Amazon Alexa, Google Home, and Slack Messenger.
- Collaborated on team projects providing updates and information to leadership, project managers, sales, and marketing.

ZirconTech

Software engineer (HTML, CSS, JS, jQuery, MySQL)

January 2012 - December 2012 (1 year)

New York, NY, United States

- Developed virtual assistant applications for major customers. Worked closely with clients through the entire development cycle, gathering requirements, prototyping, implementing, testing, delivering, and supporting the application.
- Created a scalable portable production-ready virtual web chat application. Researched, architected, and implemented speech recognition, text to speech, cross-browser compatibility, and reactive design.

Education

Columbia University in the City of New York

Bachelor of Computer Science, Computer Science · (2007 - 2011)
